PLASTIC-FREE TOOLS

made from Loofah Plant by  
bibo

The loofah sponges are made from the loofah plant's fruit, which is the inside part of the loofah sponge. It is a fast growing and sustainable plant. Inside the fruit a dense grid of fibres is formed. Our Loofee products are handmade in the manufactory. As it is a fruit, the colour and the size of the luffa sponge may change, sometimes it might contain seeds.

Why should you choose the **loofee** luffa sponge?

vegan • plastic-free • biodegradable  
LONG LASTING PLANT SPONGE MADE FROM LOOFAH

The perfect alternative for plastic sponges

Handmade products. Sizes around 8-12x15 cm. Swells to multiple of its size when soaked in water, its fibres soften become sponge-like. After usage, rinse through, wring it and hang up to dry. You can clean it in the washing machine, dishwasher or with hot water. Very persistent, with proper usage you can use it for months. After it has deteriorated, you can compost the sponge, it degrades in the environment.

Ingredients: 100% loofah plant fruit (Luffa aegyptiaca, Luffa cylindrica peeled, seeded out, dried), cotton string.

#### FRUIT AND VEGETABLE WASHING LUFFA SPONGE

Ideal for cleaning hard-shelled vegetables, fruits. Use it on the wet peel of the vegetables and fruits with gentle rubbing to remove any contamination.

#### LUFFA SPONGE FOR DISHWASHING

Use it on any surface while washing the dishes, it is scratch-free thanks to its softened fibres.

#### LUFFA SPONGE FOR CLEANING

Recommended for cleaning washbasins, bathtubs, tiles, taps and worktops. Use it with warm water paired with natural cleaning products!

#### LUFFA SPONGE FOR SHOWER AND BATH

Can be used everyday during your daily personal hygienic routine, while showering or having a bath, when softened by water with a small amount of soap or shower gel.
